Three-Dimensional Artwork by Kevin Cimini

Where to Start

This publication is dedicated to all of those who wish to change their surroundings, improve their lives and the lives of others but are stranded in artistic endeavours, unsure of how their tools and talent could make a difference.

This is a collection of original artwork created by such people. By portraying social issues that intrigued or disturbed them, some of these artists hoped to not only exorcise their frustrations, but also change perceptions and perhaps spark a creative movement.

Born & Raised or Not

We have invited artists that have originally been born in Brazil and some from foreign countries whose experiences in the country were significant enough for them to deeply understand its culture.

The Face & Diseases

Over the last 5 years Brazil has increasingly been seen as an attractive destination for foreigners and a popular subject for news organizations across the globe. But it not always for the reasons natives wished for.

The soccer nation reputation, the welcoming natural exuberance and the iconic music are among some of the culture characteristics that make locals proud. But the Brazilian culture has produced other not so desired stereotypes.

The cover of this book attempts to graphically and subjectively showcase the colourful and glossy outer skin of the nation, while the interior pages showcase artistic views of some of the harsher realities in the country's history and present.

"This is a government that has not been putting the dirt under the carpet."

Quote by Luiz Inácio Lula da Silva, Brazilian President as of the printing date of this book.

VANTAGEM EM TUDO HA DE SE LEVAR

I was bewildered that other peo-

ple didn't feel the same way–

"In spite of the Worker's Party previous reputation for clean and efficient government at the local level, a burgeoning corruption scandal in mid-2005 threatened to destroy Lula's government.

After Brazilian Labour Party (PTB) leader Roberto Jefferson was implicated in a bribery case, he accused the Worker's Party in June of paying members of congress illegal monthly stipends to vote for government-backed legislation. In August, campaign manager Duda Mendonça admitted that he had used illegal money to finance Lula's electoral victory of 2002."
